

Paving the Business Section of Tama, Iowa with Vitrifed Brick: A Thesis Presented by Charles W. Collins to the President and Faculty of Armour Institute of Technology for the Degree of Civil Engineer

By Charles W Collins

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Paving the Business Section of Tama, Iowa With Vitrifed Brick: A Thesis Presented by Charles W. Collins to the President and Faculty of Armour Institute of Technology for the Degree of Civil Engineer When contemplating a new improvement, such as a prater supply, sewer, or street paving system, the majority of small towns, not having sufficient work to retain an Engineer the entire year, will call on a Consulting Engineer to draw up plans, specifications, and estimate of cost for the proposed improvement, and to supervise the construction of the same. The writer has endeavored to trace the various steps involved in street paving in such a typical town; emphasizing particularly the duties and problems encountered by the Engineer. It has been his intention to bring forth many seemingly small details, which, nevertheless, are very troublesome and annoying at the time. As the writer was brought in personal contact with the work at Tama, he has taken it as an example of paving any town in Iowa, small differences naturally arising from local problems and conditions. Although the engineering problems...
